

Senior Design Architect – Materials and Detailing, Beijing / Hong Kong

Büro Ole Scheeren is an international architecture firm with a staff of eighty plus architects and designers that practices architecture, urbanism, interior design, and research.

As part of Büro Ole Scheeren's expanding portfolio of work throughout Asia, Europe and North America, including high-rise buildings, mixed-use developments, and cultural projects, we are keen to receive expressions of interest to join our worldwide offices.

We seek talented architects who share enthusiasm and commitment to critical thinking, innovative design, and a creative investigative approach. We are a global office looking for motivated and forward-thinking individuals to join our team, and are actively engaged in working on and implementing ground-breaking projects worldwide of varying typologies and scales.

For our Beijing and Hong Kong offices, we are looking for a **Senior Design Architect** with a strong track-record and emphasis of working on **Specialist Exterior Envelopes and Interior Finishes** in complex, medium to large-scale **Cultural** and **Mixed-Use** projects. You will join our creative and dynamic practice with the opportunity to introduce and develop innovative technical design solutions for high-profile commissions – during design stages and on-site, with our distinguished network of consultants. You will be one of our in-house experts who leads, coaches and mentors our teams in materializing unique and ambitious overall and specific material solutions in a project. You will contribute your passion for excellence and a sense of rigor for **Architectural Detailing**, broad knowledge of **Building Materials**, extensive experience in **Construction Documentation** stages, while sharing a true understanding for what we do as a studio. In the longer term, we want you to become a strong member of our office leadership team and take on a key role in maintaining and advancing the technical quality standards of our growing global company.

Qualifications:

- You have an excellent academic background with a Master in Architecture or Urban Design, or equivalent.
- Your track record encompasses at least 8 years in-depth involvement in designed, complex, medium-to-large-scale architectural projects of various densities through all stages of design, with an emphasis on projects in Asia
- You have worked in an internationally acclaimed architectural firm, and have paired design sensitivity with technical knowledge, and are able to communicate design and experience precisely and comprehensibly.
- You have experience in all stages of design from Concept to Construction Administration, and in the delivery of Architecture, Façade and Interior packages.

- You have good knowledge of materials, products and construction methods and the ability to maintain quality standards on the production of drawing and submission packages.
- You excel in a dynamic work environment, enjoy the responsibility of collaborating productively with design teams and consultants.
- You are literate in AutoCAD and Adobe CS, and ideally in Rhino and have the ability to communicate efficiently and clearly in hand-sketches; Knowledge in REVIT/BIM or Parametrically Generative Design a plus.
- Registration as a licensed architect a plus.
- Fluency in English; Bilingual (Mandarin) a plus.

We offer long-term prospects within the supportive and stimulating environment of our international design network, with the opportunity to further your career, as well as competitive salary and benefits. We embrace diversity in all applicants' backgrounds.

If this role excites you, please email your CV and portfolio (in PDF format, size less than 10MB, no website links please) to employment@buro-os.com, quoting '**Senior Design Architect – Materials and Detailing, Beijing/Hong Kong**' in the subject line of your e-mail. All application information will be treated as strictly confidential.
